WHAT DO YOU THINK WOULD ENCOURAGE MORE WOMEN IN LOGISTICS?

The logistics industry is stereotypically identified as a male-dominated industry over the years. One of the biggest deterrents holding women back from joining the logistic sector and pursuing it as a career option has been the absence of a good, healthy and a safe work environment. Blue Dart provides its women equal opportunities, a healthy environment, world-class infrastructure and empowers them to pursue both professional and personal success in the logistics industry.

YOU AS A WOMAN EMPLOYEE, WERE THERE ANY CHALLENGES YOU FACED WHILE GOING ABOUT YOUR WORK ON A DAY TO DAY BASIS?

As a woman, you have to break multiple stereotypes, pursue your job and take care of your family; to live life on your terms. Maintaining a balance between these tasks has been the biggest challenge. When I stepped into this industry, I am thankful for the support of my family at home and at work that enabled me to gradually learn to deal with these challenges and successfully maintain a work-life balance.

DO YOU THINK THE PERCEPTION IN THE MARKET HAS CHANGED ABOUT WOMEN WORKERS/ EMPLOYEES?

Yes, times are changing and we are witnessing women in senior leadership roles at various organizations, not to forget women taking up operational and technical roles like material handling equipment operators, shift supervisors, cab drivers and warehouse managers as well. This army of women is responsible for breaking the proverbial glass ceiling and finding themselves playing an important role in areas that were considered as male-dominated.

HOW HAS BLUE DART SUPPORTED YOU IN ACHIEVING YOUR DREAMS?

One's success and recognition based on his/her performance is the best experience that an employee can achieve during his/her working tenure. Blue Dart supports employees to put their best foot forward and facilitates a high level of productivity and engagement. It also provides me with the platform to enhance and maximize my strengths and overcome my weaknesses. It motivates and inspires me to give my best to achieve my goals as well as the company's goals.

WHY WOULD YOU WANT MORE FEMALE EMPLOYEES TO JOIN BLUE DART?

Customer service has been recognized as being extremely critical in our industry and the perfect blend of professionalism, patience and empathy can be brought into function by our female employees; as women, in general, are known to handle work with extra agility, sensitivity and empathy.

ANY WORDS OF ENCOURAGEMENT/ PEARLS OF WISDOM FOR OUR FEMALE COLLEAGUES
